📄 SUMMARY

Experienced Front-End Developer proficient in **React**, **Next.js**, **TypeScript**, and modern **JavaScript**. Specializes in creating scalable and high-performance web applications with a focus on fintech, e-commerce, and dashboard projects. Strong commitment to front-end architecture and performance optimization, working collaboratively with designers and back-end developers to create seamless, responsive, and reliable user interfaces. Driven by a passion for enhancing speed, maintainability, and user experience through clean code and efficient solutions. Eager to leverage technical expertise and problem-solving skills in a forward-thinking team to develop impactful digital products.

🎓 EDUCATION

Bachelor of Computer Software Engineering 2023 – 2025 | Tehran, Iran
Islamic Azad University Central Tehran Branch

Associate of Electrical and Electronics Engineering 2021 – 2023 | Esfahan - Iran
Esfahan Technical and Vocational College (Mohajer University)

📁 EXPERIENCE

Desna – Front-End Developer 04/2025 – 09/2025 | Tehran, Iran

- Developed and delivered 3 key projects, including a B2B clothing e-commerce platform, a corporate web application, and two interactive dashboards using Next.js, React, TypeScript, and JavaScript.
- Built responsive, high-performance user interfaces focusing on seamless UX and scalability.
- Utilized Redux for state management, React Hook Form for form validation, and high tech styling.
- Collaborated with cross-functional teams to align projects with business goals.
- Adopted new front-end technologies to enhance project quality and maintain industry alignment.

ETFOnline – Online Trading Platform 01/2025 – 04/2025 | Remote

- Developed modular, reusable, and responsive components with a focus on scalability.
- Implemented interactive, real-time stock charts and dynamic routing for articles and AI pages.
- Optimized performance, SEO, and data security across the platform.
- Built admin and user dashboards while collaborating with backend and updating legacy components.

iSEE Smart Home – Smart Home Solutions Engineer 2019 – 2025 | Isfahan – Tehran, Iran

- Managed 20+ projects (10+ units each), ensuring timely delivery and team coordination.
- Led R&D for 10+ units, optimizing functionality and solving technical challenges.
- Consulted multiple clients, achieving 85%+ satisfaction through tailored smart solutions.
- Adapted quickly to new electronics technologies, showcasing rapid learning and problem-solving skills.

🧠 SKILLS

• Next.js	• React.js	• TypeScript	• JavaScript
• Zustand	• Context API	• Github	• Tailwind
• Rest API	• ReactQuery	• Bootstrap	• Material UI

🌐 LANGUAGES

Persian — Native | **English** — B2 Level

PROJECTS

E-commerce Shop – Royal Jeans

Front-End Developer | Next.js, JavaScript, Redux, Bootstrap

- Developed front-end architecture, reusable components, and a full payment flow.
- Boosted performance (Lighthouse score from 20 → 70+) with SSR and best practices.
- Improved SEO with routing, structured data, and product schema.
- Upgraded project from Next.js 13 to 15.5 and ensured responsive, user-friendly design.
- Solely handled front-end while collaborating with back-end team.

Restaurant Website – Ghajari Food

Front-End Developer | Next.js, TypeScript, Tailwind CSS, Zustand, React Query, Framer Motion

- Refactored and re-architected the front-end, implementing a scalable component-based design system with modern best practices.
- Developed the admin dashboard to manage orders, products, tables, and customers, integrating seamlessly with the desktop app for reservations.
- Optimized SEO and performance, resulting in higher visibility, faster load times, and improved sales.
- Modernized the project for production readiness by upgrading to latest technologies and frameworks.
- Solely managed front-end development while collaborating with two back-end developers.

ETFOnline – Online Trading Platform

Front-End Developer | Next.js, TypeScript, TailwindCSS, DaisyUI

- Developed modular, reusable, and responsive components with a focus on scalability.
- Implemented interactive, real-time stock charts and dynamic routing for articles and AI pages.
- Optimized performance, SEO, and data security across the platform.
- Built admin and user dashboards while collaborating with backend and updating legacy components.
